## 2019 National Planning Conference - Food Focused Sessions

### SATURDAY APRIL 13TH

#### [How Food Shapes Our Cities:](#)

NPC198073

CM | 1.25

**Date:** April 13, 2019 **Time:** 10:45 AM - 12 PM PDT

**Location:** 2003

Without a reliable food supply, even the most advanced city would collapse. Climate change and population growth are making our cities and the agricultural systems that support them more vulnerable than ever. Explore how urban agriculture is shifting this trajectory.

#### [Industrial Areas in Transition](#)

NPC198086

CM | 1.25

**Date:** April 13, 2019 **Time:** 1 PM - 2:15 PM PDT

**Location:** 2008

This panel brings together three examples of historically industrial areas that are transitioning away from industry entirely or are trying to find a balance between traditional, heavy manufacturing and newer uses such as small-scale manufacturing, innovation, or residential.

#### [Rethinking Food Systems Planning](#)

NPC198160

CM | 1.25

**Date:** April 13, 2019 **Time:** 4:15 PM - 5:30 PM PDT

**Location:** 2004

Learn how planners and associated professionals from across the nation are breaking down barriers to use regional food systems to foster entrepreneurship, generate jobs, develop cross-sector partnerships, address land-use inequities, and revitalize distressed neighborhoods in rural and urban communities.

### SUNDAY APRIL 14TH

#### [Working Lands, Regional Resilience](#)

NPC198215

CM | 1.25

**Date:** April 14, 2019 **Time:** 10:30 AM - 11:45 AM PDT

**Location:** 2022

Learn about the Santa Clara Valley Agricultural Plan, funded by California's Sustainable Agricultural Lands Conservation Program. Now being implemented, it creates a new paradigm — a regional framework that preserves working lands, supports a vibrant economy and mitigates climate change.

#### [Trends in Green Roof Policy](#)

NPC198198

CM | 1.25

**Date:** April 14, 2019 **Time:** 2:45 PM - 4 PM PDT

**Location:** 2011

In 2017 San Francisco adopted a new policy that requires roofs meeting certain requirements to provide both solar and green roofs. Portland, Oregon, adopted similar requirements for vegetated roofs, and Denver passed a citizens initiative at the ballot box requiring green roofs.

### MONDAY APRIL 15TH

**Regenerative Urban Developments Are Changing Planning** NPC198096 CM | 1.25

**Date:** April 15, 2019 **Time:** 2:45 PM - 4 PM PDT

**Location:** 2011

Learn how the developing of regenerative cities of inclusive prosperity and well-being will scale sustainability to the next level of environment, economic and social health performance required for 21st century urbanism.
